QUALITY TRACTORS EUROPE

COMPACT POWER 2022 

## Preface

Knegt Quality Tractors are the result of the high demand and low supply of strong and versatile compact tractors at an affordable price.

With over 20 years of experience in the agricultural and equestrian sector, Jeroen van Eerd started developing the ideal compact tractor back in 2005.

Together with the right people who shared his passion for technology and one of Asia's largest tractor manufacturers as a supplier, an affordable and versatile compact tractor was created in 2006 that is capable of any job.

This was the beginning of Knegt Quality Tractors Europe!

The Knegt Tractor was initially developed for the equestrian sector, but due to the combination of a small turning circle, high lifting capacity and its comprehensive range of equipment, demand soon came from other sectors such as horticulture, forestry, horticulture, leisure and sports facilities.

Thanks to its current extension capabilities and a wide range of accessories.

Knegt Quality Tractors offers the ideal compact tractor for every sector.

You are cordially invited to visit our showroom to see what a Knegt Tractor can do for you.

## Knegt tractors

DKnegt tractors are compact, but with the power, versatility and functions of larger tractors.

All Knegt tractors are equipped as standard with: power steering, four-wheel drive, low and high gearing, limited slip differential, 2 hydraulic pumps, 2 double-acting hydraulic valves, 2-speed PTO\* with height-adjustable steering wheel.

Besides all the standard options, your Knegt tractor can also be equipped with a CE approved cab with heating and safety glass, as well as a Stoll front loader with parallel guidance and quick-change system.

In addition, all Knegt tractors have European type approval and are therefore allowed on public roads throughout Europe.

We reserve the right to change prices, printing errors and/or typographical errors. Prices which are displayed on [www.knegt-international.com](http://www.knegt-international.com) are leading.

## Knegt 45 HP Electric tractor

**Drive** 4WD

**Dimensions** 338 x 155 x 155/242 cm\*\*

**Axle width rear** 124 cm\*\*

**Axle width front** 118 cm\*\*

**Wheelbase** 164 cm

**Ground clearance rear** 29 cm\*\*

**Ground clearance front** 29 cm\*\*

**Empty weight** 1,760 kg

**Turning circle** 230 cm\*\*

**Speed forward** 1/25 km max\*\*

**Speed reverse** 1/25 km max\*\*

**Motor drive** 30 HP

**Engine hydraulics** 15 HP

**Battery** Lithium

**Capacity** 350AH / 500A

**Charging cycles** 3,500

**Working time** 3-6 hours Int.

**Recharge** Yes

**Clutch** Double

**Gears** 4 + 4 x 2

**Front wheels** 6.0-12

**Rear wheels** 11.2-20

**Control** Energized

**Brakes** Disc brakes

**3-Point hitch lifting capacity**

61 cm behind the ball hitch  
432 kg

**3 point category** 1

**PTO rpm** 540 / 1000

**Charger included** Yes, 220V

**Optional** Quick charger 380V

*\*Tires serve as an example. Supplied with tractor tires as standard!*

*\*\*depending on the tire selection*

## Knegt 55 HP Electric tractor

**Drive** 4WD

**Dimensions** 352 x 155 x 159/251\*\*

**Axle width rear** 140 cm\*\*

**Axle width front** 120 cm\*\*

**Wheelbase** 190 cm

**Ground clearance rear** 37 cm\*\*

**Ground clearance front** 40 cm\*\*

**Empty weight** 2.060 KG

**Turning circle** 400 cm\*\*

**Max speed forward** 1/25 km\*\*

**Max speed reverse** 1/25 km\*\*

**Motor drive** 40 HP

**Engine hydraulics** 15 HP

**Battery** Lithium

**Capacity** 450AH / 500A

**Charging cycles** 3.500

**Working time** 3-6 hrs

**Recharge** yes

**Clutch** Double

**Gears** 4 + 4 x 2

**Front wheels** 7.5-16

**Rear wheels** 12.4-24

**Control** Energized

**Brakes** Disc brakes

**3-Point hitch lifting capacity**

61 cm behind the ball hitch

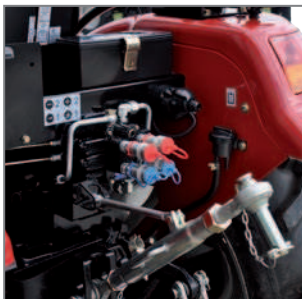

678 KG

**3-point hitch category** 1

**PTO rpm** 540 / 1000

**Charger included** Yes, 220V

**Optional** Quick charger 380V

\*Tires serve as an example. Supplied with tractor tires as standard!

\*\*depending on the tire selection

## Knegt luxury cab

The Knegt luxury cab is an excellently insulated cabin with complete standard equipment. Equipped with heating, ventilation, two windscreen wipers with washing installation, radio preparation with two speakers, 12V connection, connection for beacon, four LED work lights, large windows made of safety glass for a good overview and spacious entry. Available on all knegt tractors.

**Dimensions** L x W x H 142 x 127 x 154 cm

**Weight** 285 kg

**Safety glass windows**

**Heating** yes

**Ventilation** yes

**Windshield wipers front and rear** yes

**Seats** 1

**Interior lighting** yes, **Exterior lighting** work lights 4 x LED

## Knegt half-cab

The Knegt half-cab is an affordable alternative to drive sheltered on a tractor offering clear overview and easy entry.

The solid construction also offers protection if something hits the roof. Standard, the Knegt half cabin is equipped with a windshield wiper, width lamps and wide mirrors.

The Knegt half-cab is also easy to assemble afterwards!

## Knegt front linkage

With Zuidberg's front linkage you can connect all kinds of Construction, with category one, to the front of your tractor. This is possibly available with a PTO shaft and/or 3rd function.

The Front Linkage is available on all Knegt models.

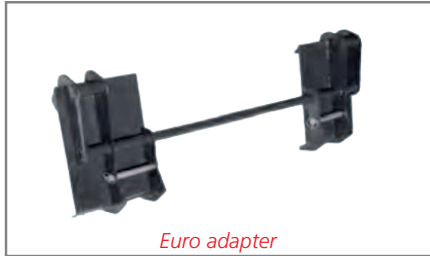

## Knegt stoll front loader

The German front loader manufacturer Stoll has been the market leader in front loaders for both compact and large tractors for many years. One front loader was produced in collaboration with Stoll that fits all Knegt compact tractors. The Stoll front loader is standard equipped with parallel guidance, quick-change system, bucket and joystick control.

	<b>304/304E</b>	<b>404/404E</b>	<b>504</b>

## Stoll frontloader Accessories

*Euro adapter*

**Euro-skid adapter**  
**Weight** 23,5 kg

*Bale spike*

**Bale spike**  
**Weight** 60 kg

*Pallet fork*

**Pallet fork**  
**Lift capacity** 1000 kg  
**Length** 800 kg  
**Weight** 60 kg

## Stoll frontloader Accessories

*Manure Fork*

### Manure Fork

**Dimensions<sup>1</sup> LxWxH** 121 x 5,6 x 6,7 cm

**Dimensions<sup>2</sup> LxWxH** 145 x 5,6 x 6,7 cm

**Weight<sup>1</sup>** 68 kg

**Weight<sup>2</sup>** 79 kg

*Pelican Bucket*

### Pelican Bucket

**Dimensions<sup>1</sup> LxWxH** 120 x 6,7 x 6,0 cm

**Dimensions<sup>2</sup> LxWxH** 145 x 6,7 x 6,0 cm

**Opening width** 950 mm

**Weight<sup>1</sup>** 115 kg

**Weight<sup>2</sup>** 130 kg

*Crocodile Grip*

### Crocodile Grip

**Dimensions<sup>1</sup> LxWxH** 120 x 6,9 x 6,1 cm

**Dimensions<sup>2</sup> LxWxH** 145 x 6,9 x 6,1 cm

**Opening width** 950 mm

**Weight<sup>1</sup>** 120 kg

**Weight<sup>2</sup>** 135 kg

## Stoll front loader Accessories

### **4 in 1 grab bucket**

**Width<sup>1</sup>** 1,40 m

**Width<sup>2</sup>** 1,57 m

**Weight<sup>1</sup>** 145 kg

**Weight<sup>2</sup>** 160 kg

For implements with integrated hydraulic cylinders, e.g. bale clamps, silage unloading clamps, manure grabber, etc., a 3rd function is required.

Controlled with a joystick.

**Weight Own weight** 115 KG

**Min / max** 80 / 140 cm

## Knegt tires

The Knegt tractors can be fitted with turf tires. These turf tires prevent leaving deep tracks in the grass or other surface.

Knegt has three different types of turf tires. The **Armour** turf tire (standard), **Titan** turf tire (extra wide) and the **Galaxy** turf tyre (coarse thread).

Type	30 HP	40 HP	50 HP
Armour	✓	✓	---
Titan	✓	✓	---
Galaxy	✓	✓	✓
Mighty Mow	---	---	✓

*Titan gazonbanden*

## **Knegt tow bars**

You can add a tow ball, drawbar couplings or 3-point drawbar to your Knegt tractor.

### **Tow ball**

The Knegt tow ball is easy to attach on the pull bar under the PTO on your tractor.

### **Drawbar Couplings**

Because of the high mounting point, the Knegt jaw is suitable for e.g. agricultural trailers.

### **3-point drawbar with tow ball**

The Knegt 3-point drawbar is mounted to the 3-point hitch and fitted with a tow ball.

*Tow ball*

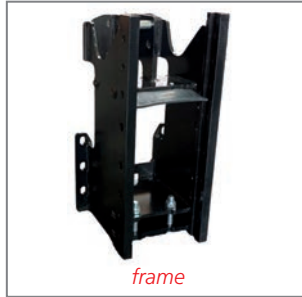

*Drawbar Couplings*

*3-point drawbar with tow ball*

## Height-adjustable towbars

You can also equip your Knegt tractor with a height-adjustable drawbar or towbar of 30HP, 40HP or 50HP.

*frame*

*Drawbar*

## Knegt fixed flail mowe

The Knegt flail mowers work by means of a rotating drum with hammer-shaped flails. The flails cut and mulch the crop, which is then thrown out at the rear. These flail mowers are suitable for challenging mowingwork and can easily cut high and coarse crops on uneven ground.

All Knegt flail mowers come standard with a PTO shaft.

Available in width 125 cm, 145 cm, 175 cm and 220 cm.

## Knegt side-shift flail mower

The Knegt KMSS flail mower is fitted with a hydraulically operated side offset function which gives 40cm of lateral adjustment, that allows you to mow both behind and to the side of your tractor. This is a useful feature when you have to mow under a fence or under crops.

All Knegt flail mowers come standard with a PTO shaft.

Available in width 125 cm, 145 cm, 175 cm and 220 cm.

## Knegt verge flail mower

The Knegt KMV is a flail mower attached to a hydraulic arm which can swivel from +90 to -60 degrees, and which can be used both behind and to the side of your tractor. The verge flail mower can be used for e.g. mowing ditches and roadsides.

All Knegt flail mowers come standard with a PTO shaft.

Available in width 125 cm and 145 cm.

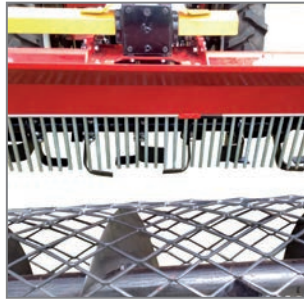

The Knegt KMV is also available in CAT2 version, 140, 160 and 180 cm

## Knegt stone burier

The Knegt OF145 stone burier is suitable for tractors from 30 horsepower and upwards. With the stone burier, you can turn a flat rough surface into a seed-ready soil.

All Knegt stone buriers come standard with a PTO shaft.

## Knegt power harrow

The Knegt RE125 power harrow is used to level soil and make it ready for sowing. In addition, the Knegt power harrow is suitable to loosen and level sand in a riding arena, gravel paths and various other types of surfaces.

The rotary harrow is fitted with 6 rotor heads, each with 2 blades and a crumblers roller, which can also be used to determine the depth. This robust rotary harrow has an extra heavy jig.

All Knegt power harrows come standard with a PTO shaft.

## Knegt flail mower collector

The flail mower collector is designed for the professional user, ideal for sports fields, golf courses and high quality grass areas where a high standard of finish is required. These machines are also ideal for leaf collection. This flail mower works by means of a rotating drum with hammer-shaped flails and collects the mowed crops in the hydraulic reservoir.

All Knegt flail mowers come standard with a PTO shaft.

Available in width 120 cm and 160 cm.

## Knegt finishing mower

The Knegt WB finishing mower turns your tractor into a mowing machine. These mowing machines feature three heavy overlapping blades, very solid right-angle gear box, heavily guided blade holders with central lubrication and 4 wide castor wheels with grease nipples. With the Knegt finishing mower, you can not only mow the lawn, but you can also use it for courser crops.

All Knegt pasture toppers come standard with a PTO shaft.

Available in width 120 cm, 150 cm and 180 cm.

## Knegt wood chipper

This Knegt HV5m wood chipper has a 10 cm feed hole and has to be fed manually.

The HV5m wood chipper is suitable for tractors from 18 horsepower upward.

All Knegt wood chippers come standard with a PTO shaft.

## Knegt fertilizer spreader

The Knegt KMS300 fertilizer spreader can be used for granular and powdered fertilizer, but also for sand or salt.

Fitted with a robust plastic funnel, suitable for 200 liters and adjustable scatter width.

## Knegt Hydraulic sweepers

The Knegt VM-series hydraulic sweepers are ideally suitable for the maintenance of your yard but can also be applied on all other paved surfaces. These rugged sweepers are equipped with a collector tray and height adjustable castors.

Available in width 125 cm, 175 cm en 225 cm.

## Knegt PB hole digger

The Knegt PB Post hole digger make digging a hole to a child's play. With the Knegt PB Post hole digger it's easy to plant fences, posts and poles. In addition, the Knegt PB Post hole digger is also widely used for placing trees with root ball. We three types Knegt **PB** Post hole diggers. The **PBL** is the light version for behind a small tractor. The **PBP** is a heavier version for the professional use and the **PBPH** is a heavy version equipped with hydraulic cylinder.

### Separate drills

6"-15,2 cm /100 cm

9"-22,8 cm /100cm

12"-30,2 cm /100cm

## Knegt arena levelers

The Knegt arena levelers BV 2.0 and BV 2.4 are the latest generation of arena levelers. These arena levelers are equipped with 3 knives, 2 Combs, height-adjustable role and trailing system.

This trailing system enables the leveler to follow the tractor precise so it does not leave a trace in the curves and evens the bumps.

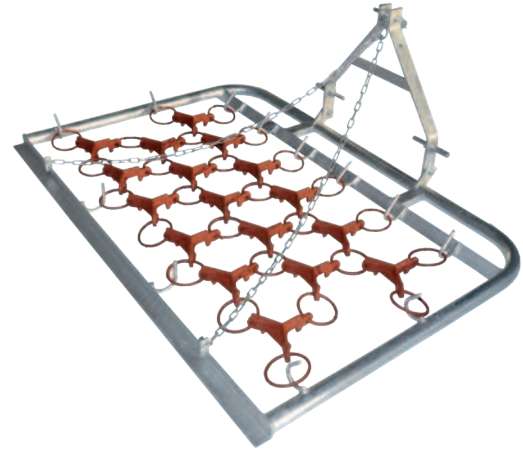

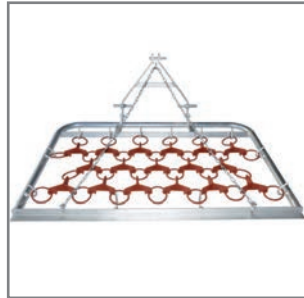

These arena levelers are suitable for different types of soils including sand and sand/fiber bottoms.

## Knegt field harrow

The Knegt **WS200** is a robust field harrow for compact tractors and mini-tractors.

With a working width of 200 cm and a very sturdy galvanized frame, this field harrow is one of the most popular models on the market.

## Knegt transport box

As a standard, the Knegt transport container is fitted with a removable back plate, tilt function, and is suitable for a 3-point connection category 1.

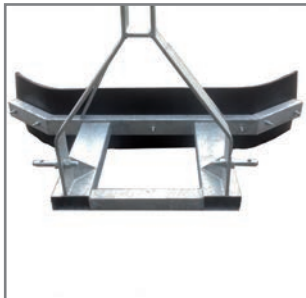

## **Knegt** manure scraper

The Knegt snow shovel/manure scraper has a working width of 160 cm and is ideal for clearing snow and manure with your compact tractor or forklift.

The snow shovel/manure scraper can be connected to the 3-point hitch with both cat. 1 as cat. 2 and can also be used with pallet forks.

Steel wire has been incorporated into the rubber to get a stronger surface and to prevent wear.

## Knecht service/maintenance

Customer service is important for us. That's why we offer good service and maintenance of our products. Machines can be serviced in our workshop. However, as we sell our products throughout Europe and beyond, we're not always able to offer service on location.

Because of the simple but sound construction of our tractors, you will always be able to find a company close to you that can service or repair your Knecht tractor.

Because we assemble our tractors in-house, we have all parts in stock. We can always quickly send any parts needed to the garage or workshop where your tractor is being serviced.

We also supply complete service kits with an oil filter, air filter and hydraulic filter.

Our service does not end when the warranty period expires!
